SUSTAINABLE FUTURE ISSUE CARDS

BOKE FOUNDATION

Sustainable Future Issue Cards

This set of cards aims to inspire teenagers to explore the United Nations' 17 Sustainable Development Goals (SDGs) deeply through collaborative game design workshops.

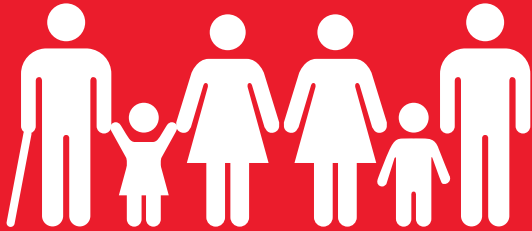

Each card corresponds to a specific SDG. Facilitators can choose any number of cards to guide teenagers to think like game designers on how to creatively solve global issues through gamified strategies.

Let's use the power of games to develop and implement innovative plans for a sustainable future.
